## MERN - STACK DEVELOPER

### PROFESSIONAL SUMMARY

- MERN - Stack Developer leveraging 5.5 years of enterprise IT experience at Infosys and Tech Mahindra.
- Specialized expertise in building scalable, API-driven backend architectures using Node.js, Express.js, and MongoDB, complemented by modern React/JavaScript (ES6+) frontend development.
- Combines a rigorous background in P1 incident resolution, deep-dive log analysis, and enterprise cloud migrations with a focus on delivering highly performant, secure, and maintainable web applications.

### TECHNICAL SKILLS

**Backend & Database:** Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, Mongoose.

**Frontend:** JavaScript (ES6+), React.js, React Router Dom, React Forms, HTML5, CSS3, Tailwind CSS, Vite.

**Testing, Tools & Cloud:** Jest, Supertest, Git, GitHub, VS Code, Postman, Vercel, Render, MongoDB Atlas.

**Enterprise Architecture:** ServiceNow, Azure Boards, Cloud Migrations, NICE CXone.

### PROFESSIONAL EXPERIENCE

#### Senior Associate Consultant | Infosys Ltd (Jan 2022 - Mar 2025)

- Supported migration of enterprise applications and workflows to cloud environments while ensuring system stability and smooth operations.
- Handled high-priority (P1) incidents using ServiceNow by performing troubleshooting, coordinating with teams, and supporting issue resolution.
- Created and maintained technical deployment and support scripts to assist production operations and improve application support processes.

#### Associate Customer Support | Tech Mahindra (Jun 2019 - Jul 2021)

- Conducted deep-dive log analysis to troubleshoot and resolve real-time production backend issues rapidly.
- Analyzed system performance metrics using specialized tools to detect systemic trends, driving proactive architectural and support strategies.

### TECHNICAL PROJECTS

#### > TixHub [Ticket Management System] | MERN Stack | [Demo](#)

- Developed and deployed a full-stack Ticket Management System using MERN stack to manage ticket creation, updates, tracking, and collaboration workflows.
- Designed and integrated RESTful APIs using Node.js and Express.js to handle ticket operations and application data flow.
- Implemented MongoDB database models and CRUD functionality for managing tickets, comments, and application records.
- Integrated environment-based configuration, frontend-backend communication, and production deployment using Vercel and Render.

#### > Project Insta [Instagram Feed Section inspired] | [Demo](#)

- A full-stack Instagram-inspired social media application built with the MERN stack. Users can upload posts, view image feeds, and interact with a responsive modern UI.
- Frontend: ReactJS, TailwindCSS, Axios, Vite.
- Backend: NodeJS, ExpressJS, MongoDB, Mongoose, Multer, CORS, Express Rate Limit.
- Deployment: Frontend [Vercel]; Backend [Render], Database:[MongoDB Atlas]

### EDUCATION & CERTIFICATIONS

**B.Tech Computer Science & Engineering**, Gandhi Engineering College (2015 – 2019)

**Certifications:** Web Development, Generative AI Landscape & Prompt Engineering
